2011 ICRI CAROLINAS CHAPTER FALL CONVENTION SPEAKERS' BIOS

Andy Anderson, Attorney-at-Law & Partner, Anderson Jones, PLLC, Raleigh, NC

V.A. "Andy" Anderson is a partner in the law firm of Anderson Jones, PLLC in Raleigh, NC and is in his twenty-first year of practice. He is a native of Dunn, North Carolina and currently resides in Clayton, North Carolina. Prior to entering the legal profession, Andy worked for a commercial contractor part time for four years and full time for 10 years. Andy also served as Vice President of Mid-South Construction, a commercial general contractor. Andy received his Bachelor of Arts degree from Campbell University in 1985 and Campbell University Law School in 1988. Andy is a member of the North Carolina Bar Association and Construction Law Section, is a certified Superior Court mediator and is a former member of the North Carolina Construction Law Council. He has given numerous seminars on construction matters and has taught seminars for Carolinas AGC, ABC, Mechanical Contractors of North Carolina, North Carolina Association of Electrical Contractors, Waterproofing Contractors of America, North Carolina Homebuilders, Carolinas Roofing and Sheet Metal Contractors Association and others and Continuing Legal Education classes for attorneys in construction law and OSHA defense. He has extensive experience and represents owners, corporations, public entities, trade associations, design professionals, general contractors, subcontractors and suppliers in litigation and transactional matters, collections, lien and bond claims, construction disputes, administrative law, OSHA defense, contracts, licensing and related legal matters.

Brian Daley, Business Development Manager, Special Projects, C.A. Lindman, Inc., Jessup, MD

In 2005 C.A. Lindman formed a Special Projects Division to provide high quality structural concrete, masonry and waterproofing facade repair in areas without local contractors with the ability to meet owner's special needs. Whether it is too big, too sophisticated and complex, or too risky clients often find frustration with contractors that only want to work on the easy or standard repair projects. Brian Daley heads up this group of experienced Lindman employees willing to live away from home for months at a time. Their recent projects include 4 ICRI award winning projects in various locals (Harrisburg, Pa, US Virgin Islands, and two in Miami Beach). Special Projects has expertise in historic restoration, PT repairs and strengthening, waterproofing and grouting, as well as typical concrete and masonry repair projects.

Art Burkhardt, Vice President of Sales & Marketing, Old Carolina Brick, Salisbury, NC

Art Burkhardt is Vice President of Sales and Marketing for Old Carolina Brick Company, the largest maker of authentic handmade brick in America. He has worked in the brick industry for 47 years and is one of the founders of the Brick Forum, the largest brick show in the nation. He serves on the Board of Directors of Brick Southeast and is a member of the National Trust for Historic Preservation and the Founders' Club of Colonial Williamsburg, as well as being a consultant to Mount Vernon and Colonial Williamsburg.

Art worked with Travis McDonald on the restoration of Thomas Jefferson's Poplar Forest and has been a consultant on restoration projects such as Christ Church, Bacon's Castle, Tome School, Tryon Palace, Biltmore House, and numerous others. He also is Chairman of the Board of Directors for Davidson County Social Services, committee member for Davidson County Animal Ordinance and President of the Board of Directors of Friends In Need Animal Rescue, a non-profit organization.

Chris Coutu, PE, Principal Engineer, Atlas Engineering, Inc., Raleigh, NC

Chris Coutu serves as Principal Engineer of Atlas Engineering, Inc. Mr. Coutu has extensive experience in the assessment and evaluation of existing structures, and has designed both temporary and permanent structural repairs for renovation and repair projects. Mr. Coutu has experience in the design of building cladding repairs and structural upgrades for building modifications. Mr. Coutu is a licensed Professional Engineer in North Carolina and South Carolina. Mr. Coutu is an on-call engineer for North Carolina Urban Search and Rescue Task Force 8 (USR-TF8) emergency response team

Brian Barnes, Regional Manager, Helifix, Inc, Cedar Rapids, Iowa

Brian Barnes is National Sales Manager of Helifix Inc. based out of Cedar Rapids Iowa. He has been in the preservation field for eight years and has worked on many projects from California to Chicago to New York. Brian works closely with architects, engineers and contractors in the restoration of buildings, bridges, parking garages, etc. One of the most important aspects to Brian's job is the on-site visits and valued engineering while working in conjunction with the contractors.

Michael Edison, Chemical Engineer and President, Edison Coatings, Inc., Plainville, CT

For the past 38 years he has worked in product/process development and technical services, focused primarily on restoration materials for historic masonry, stone and concrete. He is an officer in the Society for the Preservation of Historic Cements, a past Director of the APT Northeast Chapter, a Past President of the CT Chapter of ICRI and Chairman of ASTM Task Group C1.10.04 on Natural Cement. He has authored multiple papers in restoration publications, and was an author and Editor for ASTM STP 1494 on Natural Cement.

Charles L. Ernest, PE - Retired Senior Vice President, Sutton-Kennerly & Associates, Greensboro, NC

Recently retired, Chuck joined Sutton-Kennerly & Associates, Inc. in 1971 as a staff engineer. Chuck was later named an Associate, then a Principal and a Senior Vice President and served as Greensboro Branch Manager and was on the Board of Directors.

He received a B. S. in Civil Engineering in 1970 from Virginia Tech and a Master of Science, specializing in structures, from the University of Illinois in 1971. During the first 19 years at SKA, Chuck performed structural design on numerous large projects, concentrating his efforts on reinforced concrete design whenever possible. His interest in investigation and deterioration of building systems lead to a focus on investigation of failures and distressed projects.

In 1990 he launched the Building Investigation and Diagnostic Department at Sutton-Kennerly & Associates. That area of service has now grown to over 36 engineers and technicians in 5 offices serving clients throughout the northeastern and mid-Atlantic areas of the United States. Specializing in water intrusion investigation and façade restoration, Chuck managed that department until he was promoted to Branch Manager of the Greensboro office at the beginning of 2008.

Chuck is a Professional Engineer in North Carolina and in eight other states in the region. He has been very active professionally throughout his career. He is a member of American Concrete Association; a member and past president of the Northern Branch and NC Section of the American Society of Civil Engineers; a founding member and past president of the Carolinas Chapter of the International Concrete Repair Institute; a member and past national Board Member of Sealant, Waterproofing & Restoration Institute; a founding member and past Board Member of the North Carolina Construction Professionals Network; a member of Waterproofing Contractors Association of NC; a member of The Masonry Society; and a member and past president of the Greensboro Engineers Club.
